

Plan 205 Dip. en Fisioterapia

Asignatura 19027 INGLES TECNICO

Grupo 1

### Presentación

The main objectives pursued for the present course are:

- (1) to develop a better understanding of physiotherapy texts written in English;
- (2) to improve the ability to use the English language (written and spoken) more efficiently.

### Programa Básico

### Objetivos

- (1) To reinforce the basic concepts of English grammar, focusing on new elements.
- (2) To acquire the main elements of English for Medicine: Physiotherapy (vocabulary, grammar, syntax...)
- (3) To improve and / or develop oral abilities to communicate in English at any given situation (from general to technical cases).
- (4) To analyze (skimming and scanning) physiotherapy texts written in English searching for any kind of information.
- (5) To produce any kind of text, from general to technical: letters, CVs, forms ...)

### Programa de Teoría

1. Developing writing skills both on general and specialized English.
2. Developing oral skills both on general and specialized English.
3. Developing different levels of comprehension: reading and listening.
4. Translating specialized physiotherapy texts.

### Programa Práctico

Different topics will be analyzed and discussed in class by means of lectures. All texts will come together with an additional grammar study and related exercises: reading and listening comprehensions, oral tests, exercises on vocabulary...

### Evaluación
